REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 14, 23 and 34 have been found to be allowable over the prior art because the prior art fails to teach or suggest a spring, e.g., hairspring and mainspring, being formed of spirally arranged amorphous metal having an S-shaped free exploded shape lying in a plane and shaped so that when the spring is mounted on a substrate the spring has an initial flexure imparted thereto, and serving as an energy storage device, in combination with the remaining limitations of said claims.

Claim 54 has been found to be allowable over the prior art because the prior art fails to teach or suggest a mainspring comprising a plurality of spirally arranged laminated amorphous metal sheets together having an S-shaped free exploded shape lying in a plane and shaped so that when the mainspring is mounted on a substrate the mainspring has an initial flexure imparted thereto, in combination with the remaining limitations of said claim.

Claims 15-22, 24-33, 35-40, 55-57 and 71-94 have been found to be allowable as being dependent upon the allowable claims 14, 23, 34 and 54, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeanne-Marguerite Goodwin whose telephone number is (703) 305-0264.
